

# GUARD THIS WITH YOUR LIFE

This sheet of paper is absolutely necessary to play Bubble Ghost,<sup>TM</sup> because it contains the "password" information you need to gain access. So don't even **think** about throwing it away. OK. Here's the secret instructions:

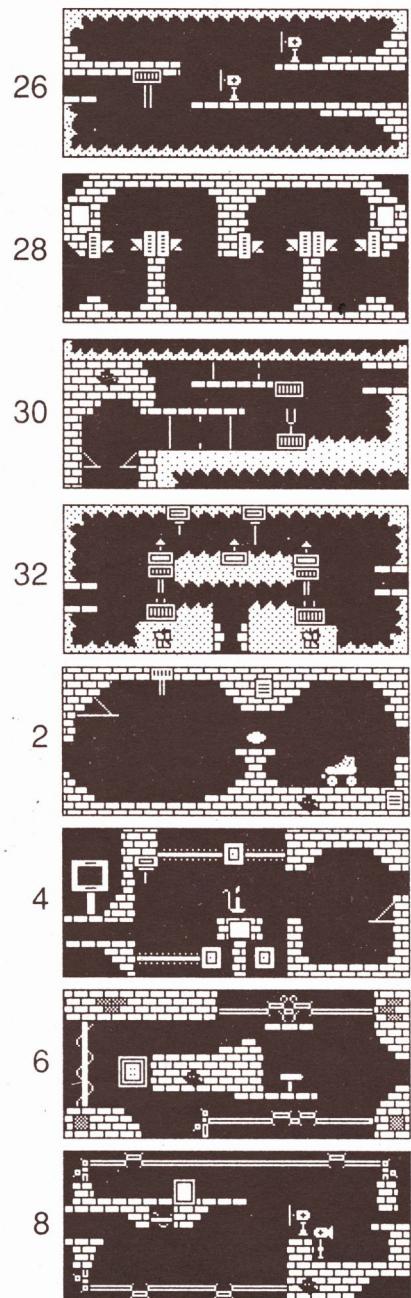

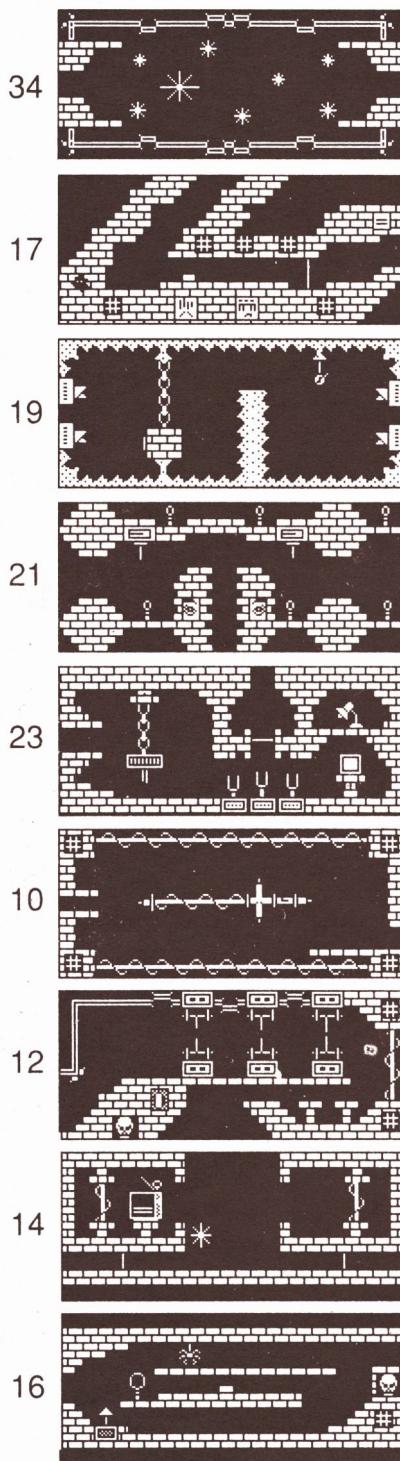

- 1 After Bubble Ghost loads, click the mouse button to start the game. One of the enclosed 34 pictures inside this booklet appears on screen.
- 2 When asked, type in the picture number from this booklet that corresponds to the picture on screen—and the game continues.
- 3 You have two chances to type the correct number. After the second time, the game automatically shuts down, and you have to reboot the disk.

Why are we doing this? We removed all copy-protection mechanisms from your disk so that you can easily put it onto your hard disk. But we still want to make sure that the people who play the game are the people who pay for it. It's not fair that honest people like you should have to pay for a game when some unscrupulous people play for free on pirated disks.

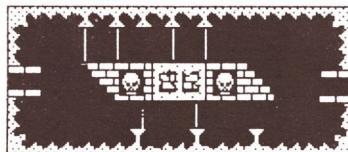

So what happens if you lose this? Of course you're **not** going to lose it. You're going to guard it with your life. But if you do lose it, send us \$15—we'll send you another copy. And if your dog chews it, or it's otherwise mangled or destroyed, **send us back the remains**, and we'll send you a new copy free of charge.
